booking2email *

only 15 €

* booking2email is a special program for hostels that sends the content of a booking form to the hostel's email address. In addition, Booking2email can perform a simple check of credit card numbers.

Booking2email can be secured through SSL to make sure that your customer's data is being protected.

Other features can be booked together with these specials. Just talk to us – we will be glad to accommodate extraordinary needs.
